Additional meetings will be scheduled using a poll for those involved, allowing everyone to have a say in the scheduling.

4. Member Responsibilities

Every member agrees to carry out the tasks associated with their roles, and to help others in the team when they need it.

5. Code of Conduct and Core Values

Every member agrees to abide by and respect the following rules and core values:

- Teamwork. The primary purpose of the project is to learn how to work in a software development team, and to help each other grow.
- Enjoyment. Building something together should be fun! We shouldn't forget to relax and enjoy ourselves from time to time.
- Respect. We're all students here, and we're all in the same boat. Respecting each other will allow us to have a more fulfilling experience in this course.

6. Conflict Resolution

If the conflict can be resolved one-to-one, then it will be talked out one-to-one. We will resolve logistical or technical conflicts through a poll, and for more difficult conflicts, we will consult with

If group members fail to carry out their responsibilities, then first the group leaders will attempt to talk with them one-on-one to see if it can be fixed. If not, we will consult with the course faculty.
