Team RaccoonBytes
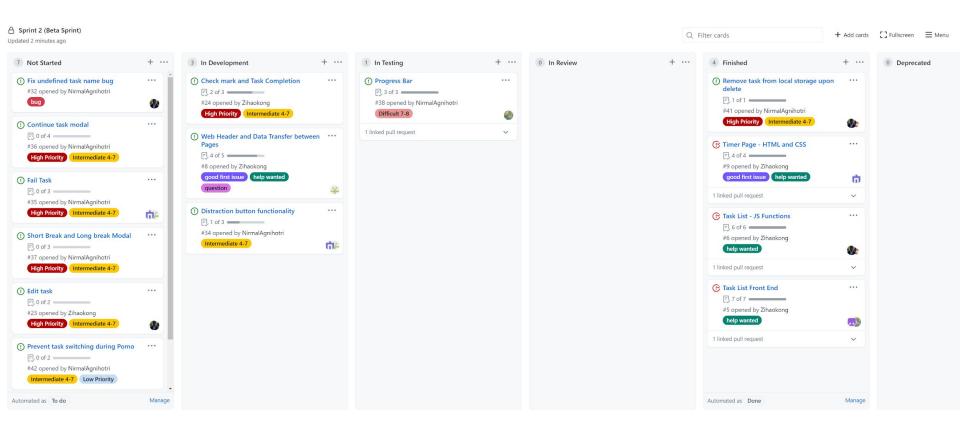

Progress Report Week 8

What we did

1. Created a detailed issue board and assign tasks to different people in detail
2. Merge branches and putting everything together
3. Had our Sprint Retrospective, where we go through what went well and what could be improved

Issue Board

To-do

1. Discuss next steps for everybody
   a. Unit testing
   b. Code Review and Styling enforcement
   c. Possible refactoring to be custom components
2. Style everything and fix edge case bugs
